

# Fiber Optic Attenuators

## Product Description

The optical fiber attenuators are used to reduce the power of light in the fiber optic network.

## Product Applications

CATV, LAN, FTTH, PON, measuring equipment ...

## Optical parameters

Wavelength: 1310nm and 1550nm

PDL < 0,1 dB

Return loss (RL): -50dB (UPC), -60dB (APC)

Attenuation Tolerance: 1 -10 dB:  $\pm 0,5$ dB

10-30 dB:  $\pm 1,0$ dB

Temperature range: -40°C a 75°C

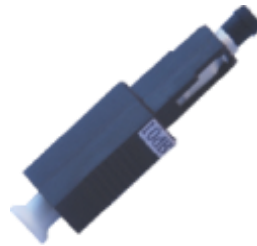

## Attenuators SC/APC

## Attenuators SC/UPC

## Attenuators MU/UPC

## Attenuators LC/UPC

## Attenuators FC/APC

## Attenuators FC/UPC
