

## 4" Feed Through Boot Assembly w/1 hole for E70

**Product Description**

4" Feed Through Boot Assembly Hole for E70 Waveguide

Picture shows BOOT4-78-3 for illustration purpose

**Features/Benefits**

These innovative boot assemblies feature a one-piece design which reduces installation time. The split, one-piece style simplifies clamping and frees the installers hands to position the cable runs. Boot assemblies are designed to be fitted onto 4" entry panels in wall/roof feed-through applications. The durable boot is designed to meet ASTM-D2000 and SAE J200 specifications. Each boot assembly includes the boot, two round member adapter clamps which fit inside the boot assembly to hold the waveguide in place.

**Technical Specifications**

Product Line	Elliptical Waveguide Accessories
Product Type	Wall/Roof Feed-Through System
Feed-Through Component	Boot Assembly
Transmission Line Type	E70
Feed-Through Hole Diameter, mm (in)	102 (4)
Insert Holes	1
Color	Black
Material	EPDM rubber
Operation Temperature, Å°C(Å°F)	-50 to 85 (-58 to 185 )
Storage Temperature, Å°C(Å°F)	-50 to 85 (-58 to 185 )
Package Quantity	1
