

4" Feed Through Boot Assembly w/1 hole for E150 Waveguide

Product Description

4" Feed Through Boot Assembly Hole for E150 Waveguide

Picture shows BOOT4-78-3 for illustration purpose

Features/Benefits

These innovative boot assemblies feature a one-piece design which reduces installation time. The split, one-piece style simplifies clamping and frees the installers hands to position the cable runs. Boot assemblies are designed to be fitted onto 4" entry panels in wall/roof feed-through applications. The durable boot is designed to meet ASTM-D2000 and SAE J200 specifications. Each boot assembly includes the boot, two round member adapter clamps which fit inside the boot assembly to hold the waveguide in place.

Technical Specifications

| | |
|-------------------------------------|----------------------------------|
| Product Line | Elliptical Waveguide Accessories |
| Product Type | Wall/Roof Feed-Through System |
| Feed-Through Component | Boot Assembly |
| Transmission Line Type | E150 |
| Feed-Through Hole Diameter, mm (in) | 102 (4) |
| Insert Holes | 1 |
| Color | Black |
| Material | EPDM rubber |
| Operation Temperature, Å°C(Å°F) | -50 to 85 (-58 to 185) |
| Storage Temperature, Å°C(Å°F) | -50 to 85 (-58 to 185) |
| Package Quantity | 1 |
